

IAOP2020

International Congress on Oral Pathology and Oral Medicine London 2020

Instructions for Presenters

Poster presentations.

There will be two poster presentation sessions which will take place on **Wednesday 17 June** and **Thursday 18 June**. The details of your allocated time will be published in the final programme, which will be posted on the website in late March and will also be e-mailed to you.

Please check the programme carefully to identify your session and time.

Poster presentation sessions will run from 11.00-17.00 each day. Presenters will be allocated a poster board number and must ensure that their poster is set up **before 11.00** and **removed by 17.00** on the day of their presentation.

Presenters may choose the size and format of their posters, however please note that the poster boards measure 2m tall by 1m wide. We therefore have a **maximum size of A0 (1189mm x 841mm)** in **portrait layout**.

Posters must be attached using Velcro, which will be supplied at the venue. You **must not** use any pins, "Blue tack" or any forms of adhesive or tapes to attach your poster.

Presenters are expected to make themselves available for discussion and questioning of their poster presentation during the lunch and poster session from 12.30-14.00 on the day of their presentation.
